

Levin Occupational Therapy COVID-19 Precautions

Illinois COVID-19 guidelines allow therapy services to proceed in-person. Amid ongoing concerns about COVID-19, we want to take necessary steps to ensure the safety of our clients and therapists.

Levin Occupational Therapy COVID-19 Protocols

- Client and employee health screenings
- PPE for all staff and clients
- Room sanitization and waiting period after each use
- Client material bags for individual use items
- 1-2 clients seen at the clinic at a time

During this time, please...

- Do not arrive early to your appointment
- Do not bring any siblings or other family members with you to the clinic, unless arranged beforehand
- Wear a mask at all times in the clinic
- Sanitize your hands upon entering the clinic using the sanitizer provided in the waiting room

Please cancel your appointment if...

- You have recently been sick or have displayed any symptoms of illness in the last 14 days, including fever, chills, muscle pain, sore throat, cough, headaches, difficulty breathing, nasal congestion, fatigue, loss of smell, gastrointestinal upset, or a new unexplained rash
- You have flown on a commercial airline within the last 14 days
- You have been exposed to anyone diagnosed with the COVID-19 virus within 14 days of your appointment

Virtual Therapy

Levin Occupational Therapy offers virtual services, utilizing a personal HIPPA compliant video conference platform to provide face-to-face screenings, evaluations, and therapy in your home.
